

March 1, 2011

Chris,

Rusty and this team did a great job today. They were very organized and professional in every facet of the job – from installation to the mentoring Sharon and I on running the camera system. All in all this was a very educational day. Our security system is up and running and Sharon and I are very happy with our selection of 3-D Security for this job. Thanks for getting our project completed as promised.
